RUMBLE SHAPER

QUICK-START GUIDE / v0.1.19

01 / DOWNLOAD & INSTALL

Install in Logic Pro.

A few minutes to get the plugin ready on your Mac.

START AT THE MILKY97 WEBSITE

milky97productions.com

01

Save the installer.

On the website, choose **Get Rumble Shaper** at the top right, then **Download for Mac**. On the new page, click **Save installer**. If asked where to save it, choose **Downloads** and click **Save**.

02

Quit Logic completely.

Save your project. At the very top of your Mac screen, choose **Logic Pro > Quit Logic Pro**. The keyboard shortcut is **Command + Q**.

03

Install the plugin.

Open **Finder > Downloads**. Double-click **Milky-Rumble-Shaper-0.1.19.pkg**. Follow **Continue** and **Install**, entering your Mac login password if requested. Wait for the installation success message.

04

Open it in an Audio FX slot.

Reopen Logic and let its plugin scan finish. Choose **View > Show Mixer**. On your kick channel, click an empty **Audio FX** slot above Sends. Choose **Audio Units > Milky Audio > Milky Rumble Shaper**, then the channel format offered for your track.

ONE LICENCE. YOUR MACS.

Use the same purchase email on each Mac you own or use. The licence cannot be shared or resold. Need a licence? Buy on Stripe.

Mac Audio Unit effect. Tested in Logic Pro on Apple Silicon. An incoming kick is required; downloading or installing does not activate it. Windows and VST3 are not available. Intel Macs and other AU hosts remain unverified.

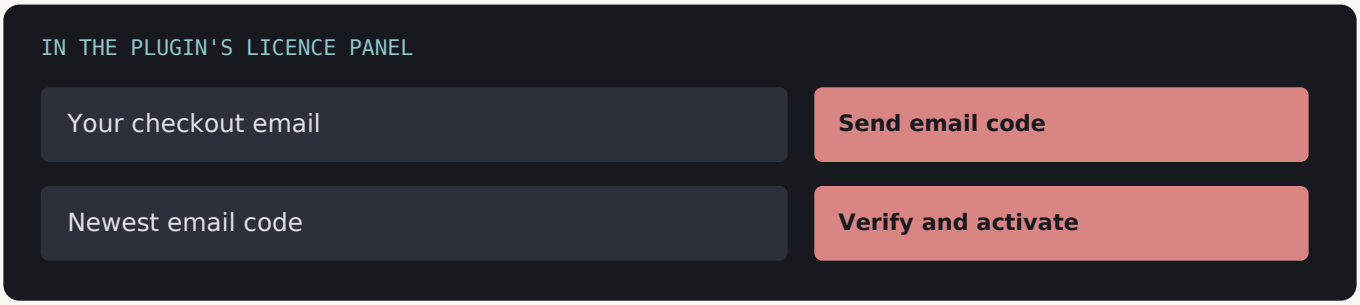

RUMBLE SHAPER

QUICK-START GUIDE / v0.1.19

02 / ACTIVATE & PLAY

Activate. Make music.

Keep the internet connected and use your checkout email.

Fields shown as a simple reference, with the same button names as the plugin.

01

Request your email code.

In Rumble Shaper, click **Licence...** near the top of the plugin. Enter the **email used at checkout**, then click **Send email code** to the right of that field.

02

Verify and activate.

Open your email inbox and find the **newest code**; check spam if needed. Enter it in the lower **Newest email code** box. Click **Verify and activate** immediately to its right. Wait for the panel to confirm your licence is active, then click **Close** at the bottom right.

03

Keep your offline access ready.

After activation, this Mac receives **up to 90 days of offline access**. The Licence panel shows the days remaining. Reconnect to the internet and click **Check licence** to renew. Activate each additional Mac separately.

YOUR FIRST SOUND

1 / PLAY A KICK

Confirm Activated is shown. Start a kick-only loop at a comfortable volume.

2 / SET DETECTION

Adjust Kick Detect until the detected-kick indicator follows the hits.

3 / SHAPE THE RUMBLE

Set Pitch, Length and Level, then shape each beat's character, pitch and filter.

No active purchase? Check that the email matches your checkout. If payment is processing, wait until it completes, then click Check licence. For help, email 97milky97@gmail.com.
